

165m²/h

Model.....	Flora XTRA3300L / XTRA3300S
Printing Heads.....	4-18 24 Konica Minolta 1024i/1024a
Color Model.....	CMYK+Lc+Lm, White (Optional)
Resolution.....	540*720, 540*1080, 726*720, 726*1080, 726*1440
Ink Type.....	LED UV Ink
Printer Type.....	Roll-to-Roll
Linear Motor.....	Flora XTRA3300L N/A XTRA3300S - included
Printing Width.....	3.3 m
Interface.....	Gigabit Ethernet
RIP Software.....	Photoprint, (Caldera, ONYX) Optional
Input Voltage.....	200-240V AC, single phase 50/60Hz 25A(printer), 25A(vacuum motor)
Application.....	Vinyl, PET film, Blockout, Backlit, Synthetic paper, Banner, etc
Environmental requirements.....	Temp.:20-30°C, Humidity: 40-80%
Printer Dimensions.....	3300L - 580/160/93cm 3300S - 610/200/210cm
Weight, kg.....	3300L - 2600kg 3300S(Gross) - 3590kg
Country of origin.....	China
Guarantee.....	12 month

	XTRA3300S 3 Row	XTRA3300L 3 Row	XTRA3300L 2 Row
Draft Mode 2 pass	165 m ² /h	165 m ² /h

Automatic Printing height adjust System

The automatic printing height adjust system makes kinds of different thickness media printing available. And you can modify the height get perfect print quality

Linear Motor & Gold plated Linear Scale

X axis are using liner motor(3300S), super fast speed and stable. Metal raster encoder and strip helps ink drop placement much more accurate. High speed and high quality is available now!

Innovative Substrates feeding System

Multi-points floating tension system, which ensure the substrate move accurately and smoothly.

High precision Servo Motor

Dual servo motor for feeding system, two movement mode for different substrate, which ensure that feeding accurately and high quality printing output.

Suction Adjustable System

The suction system can be adjusted, which will help remove the wrinkle. It can guarantee print quality for different media.

Industrial Take up & Feeding System

Industrial strength media handling system up to 360kg. Upright lock for tension rollers design which makes it easy to load and unload for quick job turn-over.
