

PROFIJET 4180TS

ProfiJet 4180TS is 1.8m solvent roll to roll printer

Key Features:

- Epson heads enable the printer to be used to print high-quality files.
- The carriage height can be adjusted from 2 to 5 mm
- Guide and bearings manufactured by THK (Japan) ensure high accuracy and reliability of the printer's mechanics.
- Optical linear encoder, allows you to increase the accuracy of droplet positioning during printing.
- Data transmission interface - Gigabit Ethernet. It allows to increase the speed of data transmission and does not requires installation of additional interface cards in the computer.
- Intensive pre-drying allows even heating of the material. This allows for increased absorption of the ink. After printing, thermal drying finally dries the image, increasing the its lifespan. The drying temperature can be adjusted using digital controls.

Printer Specifications

Interface	Gigabit Ethernet
Power requirements	AC 110/220V \pm 10% >16A 60/50Hz
Environmental requirements	Temperature: 20-25°C, humidity: 40-70%
Manufacturer	Profijet
Printheads	Epson EPS3200i 6pl.
Application	for outdoor advertising printing
Colors	CMYK
Country	China
Print resolution	up to 2880dpi
Dimensions in package	2.95x0.94x0.98
Dimensions of the printer	2.6x0.7x0.95
Printer type	Roll-to-roll
Type of printer ink	Solvent, Ecosolvent
Print speed in draft mode	up to 50 m ² /hour
Print speed in production mode	up to 35 m ² /hour
High-quality printing speed	up to 20 m ² /hour
Printing width	1.8m
Weight (kg)	200
Guarantee	12 month
Model	PROFIJET-4180TS
